

About This Course

DevOps (Development and Operations) is a software development methodology that combines software development (Dev) with information technology operations (Ops). DevOps aims to shorten the systems development life cycle while also delivering features, fixes, and updates frequently in close alignment with business objectives. The DevOps approach is to include automation and event monitoring at all steps of the software build.

1. About this course

[General Information](#)

[Prerequisites](#)

[Syllabus](#)

[Grading Scheme](#)

[Copyrights and Trademarks](#)

Module 1: DevOps Fundamentals

[Introduction To DevOps](#)

[How is DevOps Different From Traditional IT ?](#)

[Recognizing the Business Value of DevOps](#)

[Introduction to Continuous Integration / Continuous Delivery / Continuous Deployment](#)

[Introduction to DevOps Tools](#)

[Exercise 1: Git Server installation](#)

[Exercise 2: Git Client Installation](#)

[Exercise 3: Git Exercise](#)

[Build Automation – Maven](#)

[Exercise 4: ECLIPSE IDE Installation](#)

[Exercise 5: Maven Installation](#)

[Configuration Management – Puppet](#)

[Exercise 6: Installing Puppet on Ubuntu](#)

[Exercise 7: Puppet Exercise](#)

[Containerization With Docker](#)

[Exercise 8: Installing Docker on Ubuntu](#)

[Exercise 9: Create Docker images](#)

[Continuous Deployment – Jenkins & Exercise 10: Installation of Jenkins on Ubuntu](#)

[Continuous Integration – Jenkins](#)

[Continuous Testing – Junit](#)

[Continuous Monitoring - Nagios](#)

[Exercise 12: Nagios Installation](#)

[Continuous Monitoring – Graphite & Grafana - Exercise 13: Graphite & Grafana Installation](#)

Module 2: DevOps Usecase

[DevOps Use Case & Setup](#)

[Exercise 1 - Set Up a CI/CD Pipeline from Scratch](#)

[Solving Problems with DevOps](#)

[DevOps in eCommerce](#)

[DevOps in Internet of Things](#)

[DevOps in Data Science & Data Engineering](#)

Module 3: Advanced DevOps

[Introduction to Advanced DevOps Concepts](#)

[Automatic Provisioning](#)

[Exercise 1 - Automatic Rollback](#)

[Infrastructure as Code \(IaC\) - a key DevOps practice](#)

[Scalability](#)

[Clustering](#)

Module 4: Introduction to DevOps on IBM Cloud

[Introduction to Cloud](#)

[DevOps on IBM Cloud](#)
